NAJMA SHANIJA

Power BI Developer | DAX | Data Modelling | Power Query | SQL | Microsoft Fabric

najmansar15@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Power BI developer and Data Analyst with 3 years of hands-on experience designing, building and deploying interactive reports and dashboards for management and operational teams. Delivered 15+ Power BI dashboards on Microsoft Fabric Lakehouse and semantic models, using DAX for KPI measures, Power Query for data shaping, and SQL to explore, validate and reconcile report figures against source data. Experienced in translating business requirements into clear dashboards, with a focus on data storytelling, accuracy and usability for non-technical stakeholders. Eager and quick to learn new tools, with working knowledge of Microsoft Fabric and a strong interest in AI-enabled analytics.

CORE SKILLS

- **Power BI:** Power BI Desktop, Power BI service, report canvas design, interactive dashboards, KPI visuals, management and operational reporting, deployment through SharePoint
- **DAX:** DAX measures, KPI calculations, trend and variance measures, planned vs. actual and forecast measures, time-based comparisons
- **Data Modelling:** Data modelling, semantic models, relationships, dimensional modelling concepts, Microsoft Fabric semantic models
- **Power Query:** Power Query data shaping and transformation, Dataflows Gen2, type casting, data cleansing, ETL/ELT
- **SQL:** Advanced SQL, SQL Server, data exploration, validation and reconciliation of report figures against source data
- **Microsoft Fabric & Azure:** Microsoft Fabric, OneLake, Lakehouse, Dataflows Gen2, Azure Data Factory, Azure Fundamentals
- **Data Analysis & Python:** Trend analysis, variance analysis, forecasting, Python, Pandas, NumPy, Scikit-learn, API data extraction
- **Other BI & Tools:** Tableau, Advanced Excel (Pivot Tables, XLOOKUP, VLOOKUP)
- **Soft Skills:** Data storytelling, explaining data to non-technical stakeholders, attention to detail, data accuracy, stakeholder communication, cross-functional collaboration

PROFESSIONAL EXPERIENCE

Data Analyst – Equinix Data center -via ABL Technical **2025 Jan – 2026 Aug**

- Designed and deployed 15+ interactive Power BI dashboards on Microsoft Fabric Lakehouse and semantic models, covering project performance, KPIs, planned vs. actual progress, inventory visibility and forecasting, and reducing manual reporting effort by 40%.
- Gathered requirements from project managers and leadership and translated them into dashboard designs and reports that management could act on.
- Wrote DAX measures for KPI tracking, trend analysis, variance analysis and forecasting, and built the data models and relationships behind the reports.
- Used Power Query and Fabric Dataflows Gen2 for data shaping, cleansing and transformation, with ETL pipelines built in SQL and Azure Data Factory to integrate multiple sources.
- Wrote SQL queries to explore, validate and reconcile report figures against source data, and investigated data discrepancies to keep reported numbers accurate.
- Delivered the Equinix Data Centre project end to end: extracted commissioning and testing data through Python APIs, processed it in a Microsoft Fabric Lakehouse, modelled it, and published Power BI reports through SharePoint.
- Automated recurring reporting and data preparation, improving consistency, accuracy and accessibility of reports.

- Developed predictive analytics models using Python, Pandas and Scikit-learn to support forecasting and maintenance decisions.

Data Consultant -Intern – Rubix AI Consulting **2023 Jan – 2024 July**

- Analysed sales data for a leading capital investment firm using SQL, Python (Pandas) and Excel, cleaning and validating datasets to ensure accurate reporting.
- Identified sales trends, performance patterns and variances across periods to surface insights for investment and business decisions.
- Built analytical models and interactive dashboards in Power BI and Tableau to track sales performance and KPIs.
- Presented findings and recommendations to Fund Managers to support data-driven decision-making.

EDUCATION

BTech in Computer Science and Engineering | Calicut University, Kerala

CERTIFICATIONS

- Certified Data Scientist, IABAC
- Excel Certification, KHDA
- Microsoft Azure Fundamental AI 900

PERSONAL DOSSIER

- **Visa:** Spouse Visa
- **Location:** Dubai
- UAE Driving Licence
